# Complete Canine Heartworm & Internal Parasite Prevention

## The Goals of Prevention

\*Heartworm Disease (spread by the mosquito) is dangerous and expensive to treat

\*Some parasites have zoonotic potential and can be transmitted to humans.

\*Yearround prevention has shown to improve compliance and protection

<i>Comparison of the safe &amp; effective products recommended by WTV</i>								
		<i>Spectrum of Kill</i>					<i>Additional Benefits</i>	
Name of Prevention	WTV's Cost Per Dose (After Rebates)	Heartworm 	Roundworms 	Whipworms 	Hookworms 	Tapeworms 	100% Guaranteed Efficacy	Palatability
Interceptor plus (milbemycin/praziquantel)	\$7.96-\$10.50	✓	✓	✓	✓	✓	✓	✓
Heartgard plus (Ivermectin/pyrantel)	ask for quote	✓	✓		✓			Proven less palatable than Interceptor in trials
Generic Ivermectin	do not carry	✓	✓		✓			
<p><i>***Prices shown are the average price per month, when purchasing a 6 month supply***</i></p>						<p><i>Generic Ivermectin has had 2 major recalls for inadequate/ineffective levels we do not recommend using</i></p>
