

Complete Feline Heartworm & Internal Parasite/Flea/Tick Prevention

Why is prevention important?

1. Administer year-round broad-spectrum parasite control with products that have efficacy against heartworm.
2. Heartworm Disease (spread by the mosquito) is almost always fatal in cats.
3. Some parasites have zoonotic potential and can be transmitted to humans.
4. Indoor cats get heartworm and internal parasites with similar frequency to outdoor cats.
