Complete Canine Heartworm & Internal Parasite Prevention

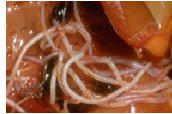

The Goals of Prevention

*Heartworm Disease (spread by the mosquito) is dangerous and expensive to treat

*Some parasites have zoonotic potential and can be transmitted to humans.

*Yearround prevention has shown to improve compliance and protection

Comparison of the safe & effective products recommended by WTVC

Name of Prevention	WTVC's Cost Per Dose (After Rebates)	Spectrum of Kill					100% Guaranteed Efficacy	Additional Benefits
		Heartworm	Roundworms	Whipworms	Hookworms	Tapeworms		
Interceptor plus (milbemycin/praziquantel)	\$8.63-\$17.25 (Dependant on Weight)						✓	✓
Heartgard plus (Ivermectin/pyrantel)	Feline Only	✓	✓		✓			Proven less palatable than Interceptor in trials
Generic Ivermectin	Do Not Carry	✓	✓		✓			
Prices shown are the average price per month, when purchasing a 6 month supply						Generic Ivermectin has had 2 major recalls for inadequate/ineffective levels we do not recommend using
